

**Course title:** Occupational Health & Safety

**Course Description:**

This course introduces the participants to the study of workplace occupational health and safety. Participants will learn safe work practices in work environment as well as how to identify and prevent or correct problems associated with occupational health & safety. The course is designed to assist with the implementation of safe healthy practices at work. *This course will also include an in-session workshop.*

**Course Learning Outcome**

After the completion of this training and workshop, participants will gain the skills and ability as OHS experts to effectively contribute to the development, and continuous improvement of OHS at work environment. Upon completion of the Occupational Health and Safety Course/Workshop, participants will be able to:

- Integrate OHS standards within their work environment
- Utilize the skills of Risk Management as a proactive measure to identify and prevent any physical, chemical, biological or psychosocial hazards.
- To effectively utilize the information related to OHS towards continuous improvement plans and actions
- Develop OHS programs and improve existing ones
- Design and conduct basic OHS Training
- Expand the horizon of OHS awareness as a team member
- Effective utilization of equipment and technology towards OHS improvement
- Identify hazards at workplace that pose a danger or threat to their safety or health, or that of others.
- Control unsafe or unhealthy hazards and propose methods to eliminate the hazard.
- Present a coherent analysis of a potential safety or health hazard both verbally and in writing, in relation to the applicable local, federal and international legislations.
- Discuss the role of health and safety in the workplace pertaining to the responsibilities of workers, managers, supervisors.
- Identify the decisions required to maintain protection of the environment and workplace as well as personal health and safety.

**Course Certification:**

At the end of the course, participants will be presented with a KHDA (Knowledge and Human Development Authority's) attested certificate.
